

# Press Release

## SVG Shaper for SwiftUI: Easily convert SVGs to SwiftUI Shapes

MAGDEBURG — May 6th, 2021

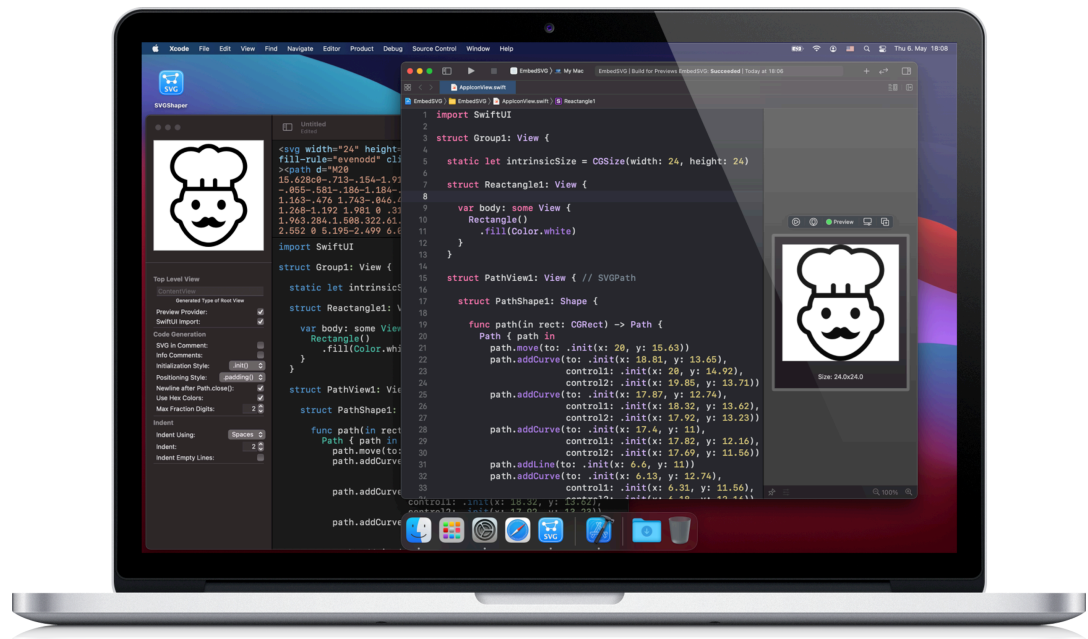

ZeeZide GmbH is happy to announce the release of **SVG Shaper for SwiftUI**, an application for Swift developers.

**SVG Shaper for SwiftUI** is a little macOS application that accepts images in the [Scalable Vector Graphics](#) format (SVG) and converts those into [SwiftUI](#) source code. Got an SVG icon from your designer? Use the contained shapes directly within your SwiftUI views.

SVG Shaper's primary purpose is to convert the paths contained in an SVG into SwiftUI "Path" values and "Shape" structures. The generated code can directly be used and previewed in a SwiftUI Xcode project.

ZeeZide GmbH

M [info@zeezide.de](mailto:info@zeezide.de)

SVG Shaper for SwiftUI is available as a \$7.99 one-time purchase. A free trial version is available. Please visit <https://zeezide.de/en/products/svgshaper/> for more information on SVG Shaper.

The application is a product developed by [ZeeZide](#) GmbH, a software development and consulting company founded in Magdeburg, Germany in 2015.
